(Pavane Publications). CANTABILE - Voice Class textbook is clearly and concisely written for 21st century undergraduate voice students. Already tested in lower division voice classes, students' response was overwhelmingly enthusiastic. Twelve foundational "anchors" of voice study are presented with accompanying vocal exercises that build competency and confidence from the first use. In addition to "anchors" on vocal technique, topics such as Deliberate Practice, Musical Expression and Vocal Health are covered. The text is engaging and well-illustrated with photos, drawings and icons. CANTABILE - Voice Class follows on the success of CANTABILE - A Manual About Beautiful Singing, a comprehensive volume that is now the preferred pedagogy course text for vocal study in studios and colleges throughout the United States and abroad. Instructors will find both texts invaluable. The concise format of CANTABILE - Voice Class makes it particularly attractive for a semester voice class and as supplementary material for choral groups and choral pedagogy classes.

The Cantabile vocal training series has become a standard resource the world over. This anthology provides four essential songs: an Italian Art Song, a German Lied, a folk song, and a contemporary solo by Rosephanye Powell. Each selection includes commentary from Dr. Rundus, and access to learning and accompaniment tracks via download.

"P5026 Cantabile Voice Class" has become one of the most popular undergraduate course texts for 2-year colleges and high schools. "Online Plus" provides a supplement with much more content than an online version. Appropriate for asynchronous, synchronous, and face-to-face classroom learning, "Online Plus" complements the physical book (P5026) and enables the course text to work online, with a teacher, or for independent study. Sound files, web sites, videos, and art songs with recorded accompaniments (Folk, Italian Baroque, German Lied, and American Art song - Rosephanye Powell) are included.

Vocal Technique: A Guide for Conductors, Teachers, and Singers is the first book to connect the disciplines of vocal pedagogy, vocal science, and choral technique. It fills a need for accurate, well-researched, and easy-to-read information on how to teach and learn singing in both solo and choral contexts. This concise yet comprehensive guidebook offers numerous, practical voice-building and problem-solving suggestions and exercises, as well as clear photographs and elegant illustrations. The authors thoroughly address important topics such as breathing, onset, resonance, vowel modification, vibrato, register transitions, range extension, intonation, changing voices (both adolescent and aging), and vocal health. They integrate the perspectives of renowned artists, choral professionals, vocal pedagogues, and the latest in vocal science. This is a must-have for conductors, voice teachers, and music educators, and will benefit solo and choral singers of all ages and abilities.

Drawing generously from four centuries of Italian, German and French art song, Exploring Art Song Lyrics embraces the finest of the literature and presents the repertoire with unprecedented clarity and detail. Each of the over 750 selections comprises the original poem, a concise English translation, and an IPA transcription which is uniquely designed to match the musical setting. Enunciation and transcription charts are included for each language on a single, easy to read page. A thorough discussion of the method of transcription is provided in the appendix. With its wide-ranging scope of repertoire, and invaluable tools for interpretation and performance, Exploring Art Song Lyrics is an essential resource for the professional singer, voice teacher, and student.

This book offers techniques regarding current styles of arranging; current choral examples in all styles (traditional, sacred, contemporary, popular and jazz); practical arranging exercises at the end of each chapter; useful appendices with complete songs to be used as source material for arrangements; particular emphasis on arranging for existing choral groups such as the elementary choir (2-part), the middle school choir (3 and 4-part to include the cambiata voice), all female and male groups, and the traditional SATB.

A sequential sight-singing curriculum for all choirs. Each of the six units (containing four lessons each) clearly introduces new music reading concepts, reinforces those concepts with several rhythm and pitch exercises, motivates students with helpful hints and challenge exercises, and concludes with fun-filled review games and "Evaluating Your Performance" questions. The helpful "Getting Ready" pages (which precede each unit) are filled with music fundamentals, and for choirs who have never read music before, an optional "Before We Begin" chapter opens the book. And it's all a neatly laid out publication and a perfect fit for your students. From whole notes to sixteenth-note patterns, seconds to sevenths, key signatures, dynamics, articulations, and tempo markings: it's all here, and it's all logically ordered to insure student
