The greatest artworks of the Old Kingdom are the Pyramids and Great Sphinx of Giza which still stand today but more modest monuments were created with the same precision and beauty. Old Kingdom art and architecture, in fact, was highly valued by Egyptians in later eras.

Ancient Egyptian Art - Ancient History Encyclopedia

The art of the Amarna period is so realistic that modern-day scholars have been able to reasonably suggest what physical ailments people in the pictures probably suffered from. Two of the most famous works of Egyptian art come from this time: the bust of Nefertiti and the golden death mask of Tutankhamun. Nefertiti (c. 1370-1336 BCE) was Akhenaten’s wife and her bust, discovered at Amarna in 1912 CE by the German archaeologist Borchardt is almost synonymous with Egypt today.

The function of Egyptian art was twofold. First, to glorify the gods - including the Pharaoh - and facilitate human passage into the after-life. Second, to assert, propagandize and preserve the values of the day.

"His eloquent ability to weave facts, insights and interpretations into a compulsively readable account sets his book far above the clogged texts that too often pass for art history."-The Times Educational Supplement

An insightful volume delving into the enduringly compelling art of ancient Egypt, from a new historical perspective The art and architecture of Egypt during the age of the pharaohs continue to capture the imagination of the modern world. Among the great creative achievements of ancient Egypt are a set of constant forms: archetypes in art and architecture in which the origins of concepts such as authority, divinity, beauty, and meaning are readily discernible. Whether adapted to fine, delicate jewelry or colossal statues, these forms maintain a human face—with human ideas and emotions. These artistic templates, and the ideas they articulated, were refined and reinvented through dozens of centuries, until scenes first created for the earliest kings, around 3000 BCE, were eventually used to represent Roman emperors and the last officials of pre-Christian Egypt. Bill Manley ’ s account of the art of ancient Egypt draws on the finest works through more than 3,000 years and places celebrated masterpieces, from the Narmer palette to Tutankhamun ’ s gold mask, in their original contexts in the tombs, temples, and palaces of the pharaohs and their citizens.

The painted and relief-cut walls of ancient Egyptian tombs and temples record an amazing continuity of customs and beliefs over nearly 3,000 years. Even the artistic style of the scenes seems unchanging, but this appearance is deceptive. In this work, Gay Robins offers convincing evidence, based on a study of Egyptian usage of grid systems and proportions, that innovation and stylistic variation played a significant role in ancient Egyptian art. Robins thoroughly explores the squared grid systems used by the ancient artists to proportion standing, sitting, and kneeling human figures. This investigation yields the first chronological account of proportional variations in male and female figures from the Early Dynastic to the Ptolemaic periods. Robins discusses in detail the proportional changes underlying the revolutionary style instituted during the Amarna Period. She also considers how the grid system influenced the composition of scenes as a whole. Numerous line drawings with superimposed grids illustrate the text.
