None Dare Call it Conspiracy is an over-sized political conspiracy pamphlet penned by John Birch Society spokesperson Gary Allen. Allen was a speechwriter for segregationist George Wallace when Nixon defeated him in 1968, and apparently Allen never got over it.

None Dare Call it Conspiracy is a great book which calls out the "Insiders". Communism is nothing but Socialism. If one understands that socialism is not a share-the wealth program, but is in reality a method to consolidate and control the wealth, then the seeming paradox of super-rich men promoting socialism becomes no paradox at all.

NDCC is an admirable job of amassing information to prove that communism is socialism and socialism (a plot to enslave the world) is not a movement of the downtrodden but a scheme supported and directed by the wealthiest of people. If enough Americans read and act upon NDCC, they really can save the Republic from the conspirators-whose plans for the destruction of our country are galloping fast toward completion.

It has been my experience for the past half-decade or so that when I want to read good horror, I don't go to the horror section of the bookstore. I go to the non-fiction section. There is a short but powerful list of nonfiction books that are guaranteed to put a good scare into you, and I seem to have stumbled across the majority of them. Stanton Peele's *The Diseasing of America*. Robert Weinberg's *One Renegade Cell*. Glenn Gaesser's *Big Fat Lies*. Add to the list Allen and Abraham's *None Dare Call It Conspiracy*. Allen and Abraham here attempt to make the case that the events of recent world history, from the Bolshevik Revolution forward, have been brought into being and controlled by a relatively small group of insiders, mostly international banking magnates and (later on) the Council on Foreign Relations. While it's certainly conspiracy theory, Allen and Abraham have done a fine job of backing up their assertions with a huge amount of primary and secondary source material (just looking up the titles in the bibliography took me the better part of two hours). Whether you're a fan of conspiracy theory or not, the facts presented, and the conclusions drawn, in this book, are thought-provoking and outrageous.

The story you are about to read is true. The names have not been changed to protect the guilty. This book may have the effect of changing your life. After reading this book, you will never look at national and world events in the same way again. *Call It Conspiracy* will be a very controversial book. At first it will receive little publicity and those whose plans are exposed in it will try to kill it by the silent treatment. For reasons that become obvious as you read this book, it will not be reviewed in all the "proper" places or be available on your local bookstand. However, there is nothing these people can do to stop a grassroots book distributing system.

Eventually it will be necessary for the people and organizations named in this book to try to blunt its effect by attacking it or the author. They have a tremendous vested interest in keeping you from discovering what they are doing. And they have the big guns of the mass media at their disposal to fire the barrages at Call It Conspiracy. By sheer volume, the "experts" will try to ridicule you out of investigating for yourself as to whether or not the information in this book is true. They will ignore the fact that the author admits that some of his ideas are about to conjecture because the people who know the truth are not about to confess. They will find a typographical error or argue some point that is open to debate. If necessary, they will lie in order to protect themselves by smearing this book. Psychologically many people would prefer to believe those who pooh-pooh the information herein because we all like to ignore bad news. We do so at our own peril! In this edition, Larry Abraham has at last revised, None Dare Call It Conspiracy, and brought it up to date. The events of the last fifteen years have served Larry's thesis quite well. As far as Larry is concerned, the history of 1970-85 has been a kind of giant grab-bag of goodies that reinforce his original thesis. The arguments for the existence of a conspiracy are stronger today than they have ever been, especially when we lay them alongside of what was said and written before. Therefore, chapters one through seven are going to remain the same as in the original book, None Dare Call It Conspiracy. The bracketed updates are new, and so are chapters eight through thirteen, plus the various appendices.

"None Dare Call It Education explains why a once great public school system now graduates students who can't read, write or calculate. It is must reading for all parents." - Phyllis Schlafly

Bill Cooper, former United States Naval Intelligence Briefing Team member, reveals information that remains hidden from the public eye. This information has been kept in Top Secret government files since the 1940s. His audiences hear the truth unfold as he writes about the assassination of John F. Kennedy, the war on drugs, the Secret Government and UFOs. Bill is a lucid, rational and powerful speaker who intent is to inform and to empower his audience. Standing room only is normal. His presentation and information transcend partisan affiliations as he clearly addresses issues in a way that has a striking impact on listeners of all backgrounds and interests. He has spoken to many groups throughout the United States and has appeared regularly on many radio talk shows and on television. In 1988 Bill decided to "talk" due to events then taking place worldwide, events which he had seen plans for back in the early '70s. Since Bill has been "talking," he has correctly predicted the lowering of the Iron Curtain, the fall of the Berlin Wall and the invasion of Panama. All Bill's predictions were on record well before the events occurred. Bill is not a psychic. His information comes from Top Secret documents that he read while with the Intelligence Briefing Team and from over 17 years of thorough research. "Bill Cooper is the world's leading expert on UFOs." -- Billy Goodman, KVEG, Las Vegas. "The onlt man in America who has all the pieces to the puzzle that has troubled so many for so long." -- Anthony Hilder, Radio Free America "William Cooper may be one of America's greatest heros, and this story may be the biggest story in the history of the world." -- Mills Crenshaw, KTALK, Salt Lake City. enslavement that you can imagine. Be active or abdicate, the future is in your hands." -- William Cooper, October 24, 1989.

Masters Of The World Hidden behind many of today's major news stories, the Bilderberg Group is an elite clique of the most powerful names in politics, media, business, and finance, who want to impose a one-world government on the rest of us. Led by such iconic members as Henry Kissinger, Bill and Hillary Clinton, Richard Perle, Melinda Gates (wife of Bill Gates), David Rockefeller, Paul Wolfowitz, Donald Rumsfeld, Tony Blair, and Margaret Thatcher, their secret conferences (where press has long been banned) are rumored to have engineered many of today's monumental global events, including: • The September 2008 collapse of worldwide banking. • Bill Clinton's presidency and the passage of NAFTA. • The loss of America's jobs to foreign nations. • The toppling of Margaret Thatcher for trying to keep the U.K. out of the E.U. Featuring interviews with meeting attendees, *The Bilderberg Conspiracy* is essential--and often terrifying--reading for anyone interested in world events. "H. Paul Jeffers reveals stunning insights about the Bilderberg Group. Wars, coups, assassinations; control of banking, finance, the media, and education--any means necessary to fulfill their agenda." --Michael Benson, author of *Inside Secret Societies* H. Paul Jeffers has published more than 50 works of fiction and nonfiction, including *Freemasons: Inside the World's Oldest Secret Society*, biographies of presidents Theodore Roosevelt and Grover Cleveland, New York mayor Fiorello LaGuardia, Diamond Jim Brady, and others. He lives in Manhattan.
