platform with enhanced capabilities to meet your evolving measurement needs for a wide range of applications. The improved performance on the E5072A exceeds what is possible with the current RF network

## *TECHNICAL OVERVIEW E5072A ENA Series Network Analyzer*

A receiver is enabled to perform self-configuration of the main data link to receive and display video data. A video data signal is received through a data link having multiple channels or lanes at a specific bit rate. No link configuration data normally associated with the video signal is received. It is then determined which one or more of the channels of the data link are active in ...
