Eighty-year-old Ted McDermott enjoyed a long career as an entertainer before his Alzheimer's diagnosis in 2013. After the disease took its toll on Ted's relationship with his family, memory and mood, his son Simon found a unique way for them to connect again: carpool karaoke. Simon filmed the pair's joyful singing and the video went viral, garnering 60 million views and touching people's hearts around the world. This is a moving story of the devastating effects of Alzheimer's, the power of music, and the unbreakable bonds of family. Print run 15,000.

A powerful and emotional memoir about family and memory from the father-son singing sensation whose heartwarming carpool karaoke video took social media by storm. At first, Simon’s beloved father, Ted, suffered sudden bad moods and forgetfulness. Then the diagnosis: Alzheimer’s. Ted was disappearing from the family, but Simon wanted to hold on to him. While music could bring him back temporarily—the video of the two of them singing along to Ted’s favorite song was a hit around the world—Ted could no longer tell his story. This is that story. *The Songamminute Man* is the heartbreaking, poignant tale of vanishing family memories, a celebration of Ted’s life and a moving account of caring for a truly loved father.

“A brave and illuminating journey inside the mind, heart, and life of a person with early-onset Alzheimer’s disease.”—Lisa Genova, author of *Still Alice*
Wendy Mitchell had a busy job with the British National Health Service, raised her two daughters alone, and spent her weekends running and climbing mountains. Then, slowly, a mist settled deep inside the mind she once knew so well, blurring the world around her. She didn’t know it then, but dementia was starting to take hold. In 2014, at age fifty-eight, she was diagnosed with young-onset Alzheimer’s. In this groundbreaking book, Mitchell shares the heartrending story of her cognitive decline and how she has fought to stave it off. What lay ahead of her after the diagnosis was scary and unknowable, but Mitchell was determined and resourceful, and she vowed to outwit the disease for as long as she could. As Mitchell learned to embrace her new life, she began to see her condition as a gift, a chance to experience the world with fresh eyes and to find her own way to make a difference. Even now, her sunny outlook persists: She devotes her time to educating doctors, caregivers, and other people living with dementia, helping to reduce the stigma surrounding this insidious disease. Still living independently, Mitchell now uses Post-it notes and technology to remind her of her routines and has created a “memory room” where she displays photos—with labels—of her daughters, friends, and special places. It is a room where she feels calm and happy, especially on days when the mist descends. A chronicle of one woman’s struggle to make sense of her shifting world and her mortality, *Somebody I Used to Know* offers a powerful rumination on memory, perception, and the simple pleasure of living in the moment. Philosophical, poetic, intensely personal, and ultimately hopeful, this moving memoir is both a tribute to the woman Wendy Mitchell used to be and a brave affirmation of the woman she has become. Praise for *Somebody I Used to Know* “Remarkable . . . Mitchell gives such clear-eyed insight that anyone who knows a person living with dementia should read this book.”—*The Times* (London) “A landmark book . . . The best reward for [Mitchell’s] courage and candour would surely be fundamental changes in the way people with dementia are treated by society.”—*Financial Times*

Have you ever looked at your email, then texts, then Facebook, then Twitter, then email, then Instagram, then Candy Crush, then texts, then Snapchat, then texts again, and now you’ve wasted the time you had set aside for more important things? Jedediah Bila has solved her own Obsessive Compulsive Tech Disorder, and she did it without throwing away her devices. It's time to switch on airplane mode and settle into Jedediah Bila’s *#DoNotDisturb: How I Ghosted My Cell Phone to Take Back My Life*. In this timely, entertaining and inspiring book, Jedediah Bila chronicles her chaotic, confusing, and all-consuming love-hate relationship with - her cell phone. Stepping back from the whirlwind of texting, social media, and an endless sea of apps, Bila questions how our relationships, character, and sanity have suffered from our deep dive into the digital abyss. Exploring the toll that tech addiction took on her life, Bila reveals her missteps and mistakes, including several upending, life-altering months swirling in an ex-boyfriend’s cell-phone-enabled double life, and how a low-tech millennial later stole her heart. Travel with Jedediah through the embarrassing and catastrophic consequences of *Ménage-a-Tech* relationships, social media's *Perception Deception*, and the *One-Potato-Chip-Problem* of trying to resist Silicon Valley's hypnotic, slot-machine software designed to lure you in. Bila reveals how she navigated away from an unhealthy, oversaturated diet of tech junk food to striking just the right balance with technology to let her unplugged, real-life moments take charge. In *#DoNotDisturb*, Bila applies her trademark no-nonsense, common-sense, personal responsibility and accountability-centered approach, warning us that if we don’t stop acting like robots, our very humanity is at stake. Through warm anecdotes and cold, hard truths, Bila reveals how she pulled her way out of the tech fog to keep her eyes focused on the life right in front of her. And how you can too.

Being diagnosed with cancer is frightening; learning that the cancer is late stage takes that fear to unknown depths. Three years on from the 'small chance' of survival the experts had given him, Mo shares his incredible story: of despair and suffering, of hope and healing, of vulnerability and authenticity.
